

STATE BUDGET

2022-23

HON STEPHEN MULLIGHAN MP
TREASURER

HON KATRINE HILDYARD MP
MINISTER FOR RECREATION, SPORT AND RACING

Thursday 2 June 2022

COMMUNITY AND SPORTING INVESTMENTS FOR THE FUTURE

Making strong investment pathways into community services that matter to South Australians are strong features of the Malinauskas Government's first State Budget.

A key election commitment, funding for SportSA and other peak bodies will be honoured in the State Budget 2022-23, with \$10 million over four years allocated to be shared between stakeholders.

The Budget includes:

- A significant investment to take ownership, rebuild and operate the Adelaide Aquatic Centre following a community consultation into the site for the new centre (\$82.4 million over four years)
- Providing grants for infrastructure and facility upgrades to sporting clubs (\$84.5 million in 2021-22)
- Funding a range of community infrastructure projects (\$68.1 million over four years)
- Developing female facilities at local sporting clubs to encourage more girls and women to become involved in sport (\$13.2 million in 2021-22)
- Providing \$1 million per annum to SportSA and \$1.5 million per annum in grant funding to be shared between our peak sporting bodies for administration of the sport and for assistance in hosting state and national championships (\$10 million over four years)

Quotes attributable to Stephen Mullighan

The needs and wants of South Australia's community and sporting groups are important to the Malinauskas Government.

Ensuring funding was spread across all areas of the community was a key State Budget consideration.

STATE BUDGET

2022-23

Developing infrastructure and enabling sporting clubs to upgrade facilities will encourage greater community involvement across the state.

Quotes attributable to Katrine Hildyard

We have honoured commitments made to thousands of South Australians involved with sport and recreation who advocated for the needs of their sport.

Sport and recreation is powerful. Participation improves people's physical, mental and emotional wellbeing and it includes and brings people together and gives many a sense of belonging.

More than ever over the past couple of years, clubs across our state have been a lifeline for many.

Allocating funds for female facilities is designed to encourage more girls and women to equally and actively participate in the sport they love. Being serious about backing girls and women in sport, means providing them with the facilities they need.
